

# MIITKUTE- USER MANUAL

Prepared by: Team#8 - Developing Decuple

## 1. Introduction

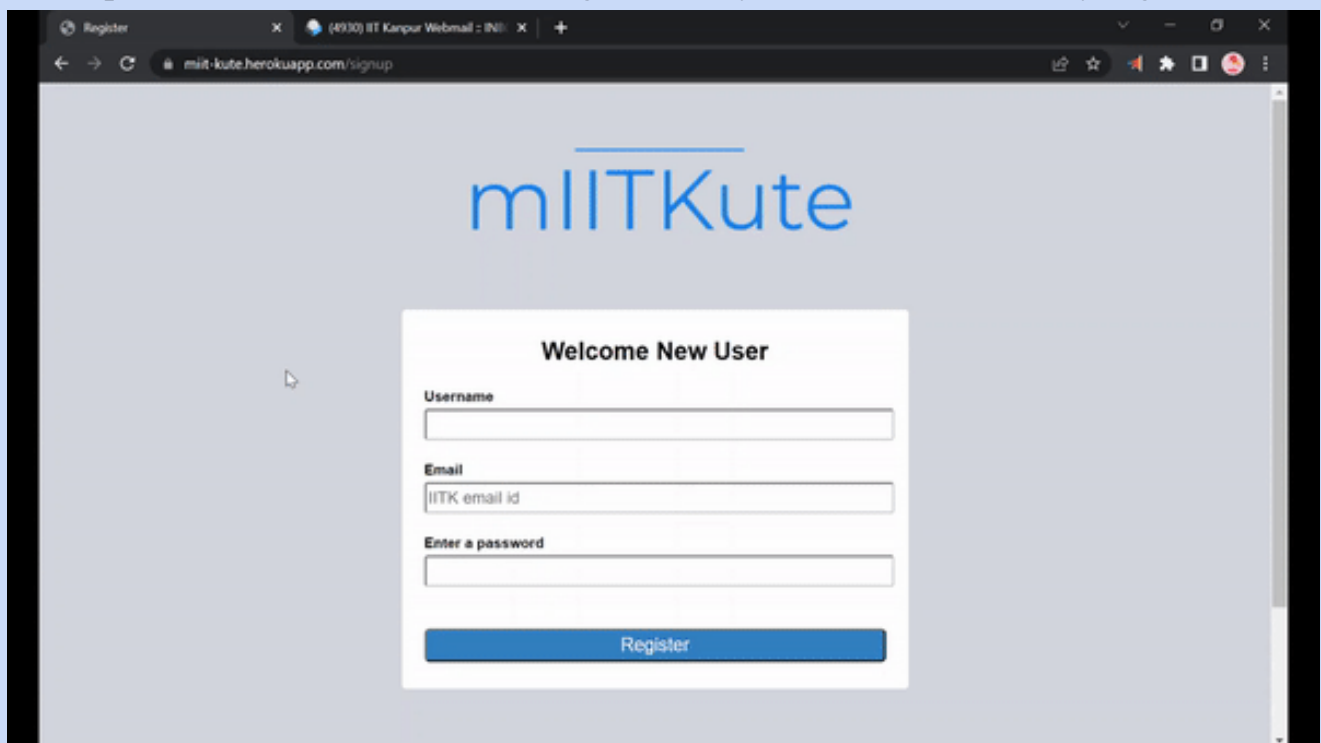

MIIT-KUTE was designed as a connecting and scheduling software for the students of IITK. It aims to bring together people who have similar interests and coinciding free time. In brief, the app allows users to find and join “events” according to their desired time and interest.

There are a wide range of categories such as sports, watch parties and study groups, etc. A temporary chat server is associated with every event where the users can communicate things like venue, availability of resources, etc.

Users can also create events at various time slots in the existing categories. However, in order to create an event that is not in the existing category, the user should request the superuser in the feedback option in the community page.

## 2. Application Capabilities and Usage

You have to Log In/Register before entering the application. After you enter your Username, IITK Email ID, and password to register, you will be sent a verification link on the provided email ID. On following the link, you will be successfully registered.

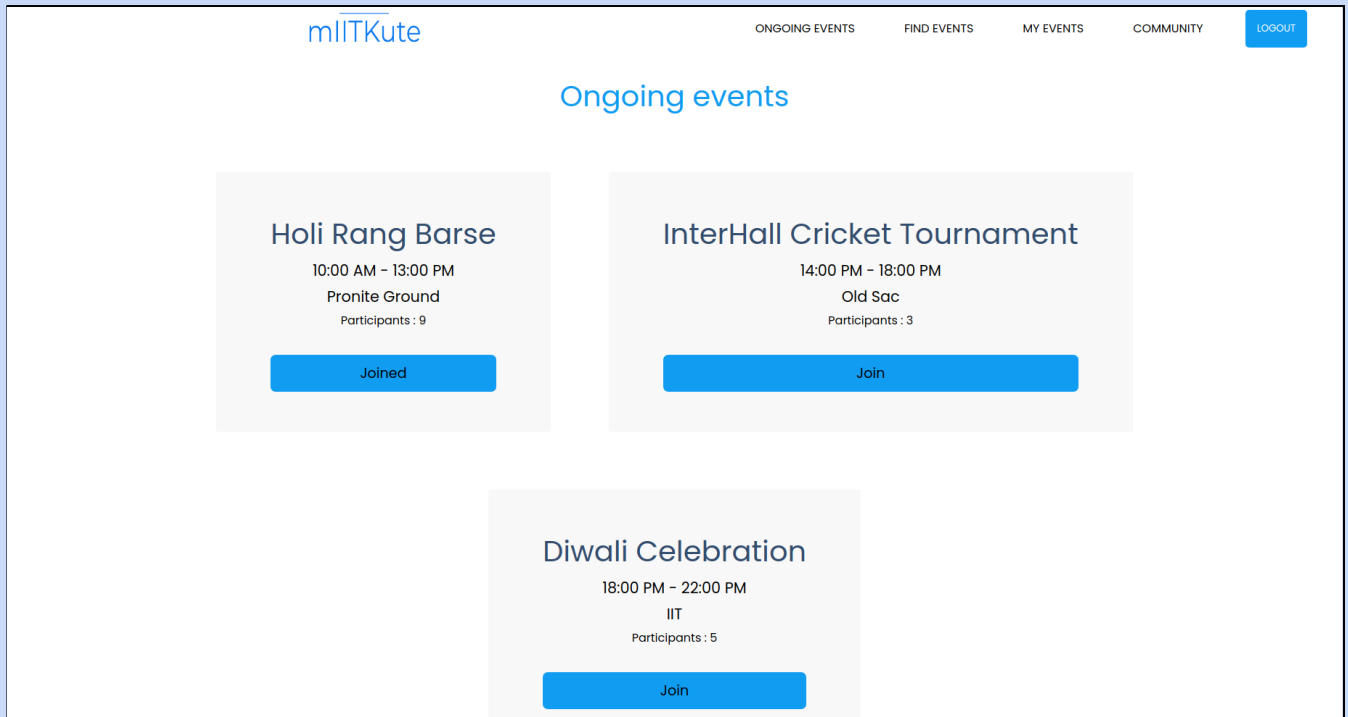

A screenshot of a web browser showing the 'miITKute' registration page. The browser's address bar shows 'miit-kute.herokuapp.com/signup'. The page has a light gray background with the 'miITKute' logo in blue at the top. In the center, there is a white rectangular box titled 'Welcome New User'. Inside this box, there are three input fields: 'Username', 'Email' (with 'IITK email id' as a placeholder), and 'Enter a password'. Below these fields is a blue 'Register' button.

New User Registration

Once you are registered, you can Log-In using your Username and password. The application consists majorly of four tabs:

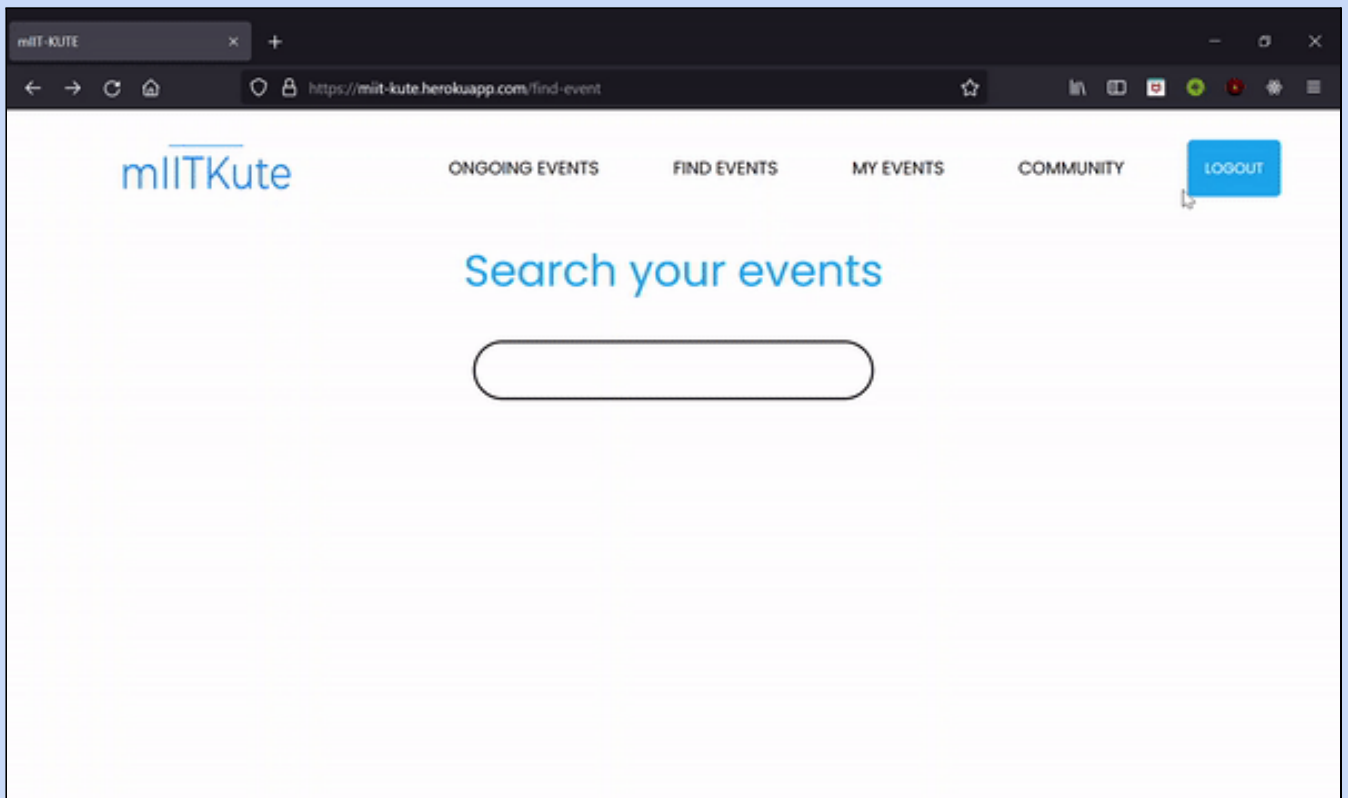

## 1. Ongoing Events:

After logging in into the portal, you will be able to see the ongoing events page. This tab shows the top 10 events taking place around that time.

## 2. Find Events:

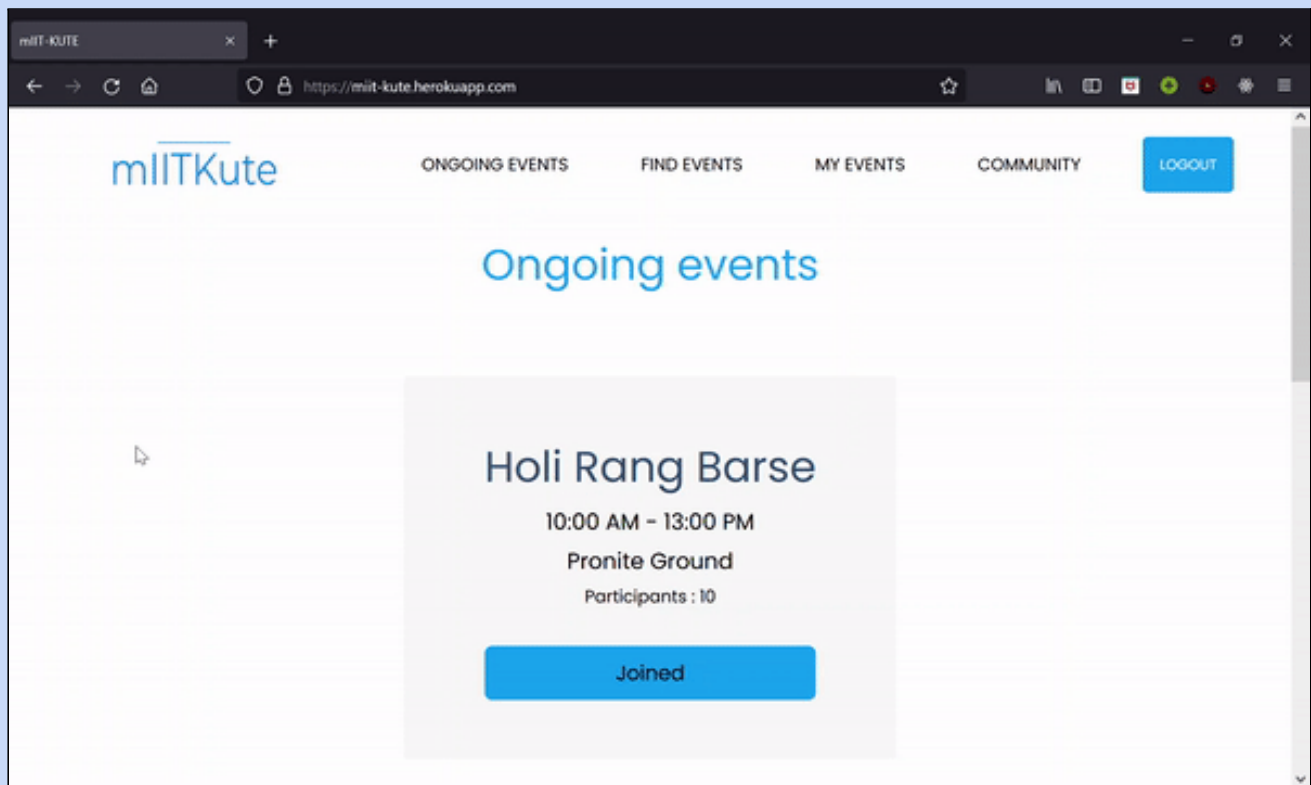

This shows all the events created by different students in the college. So you can search by entering the interest name or the time slot.

Searching through Ongoing Events

### 3. My Events:

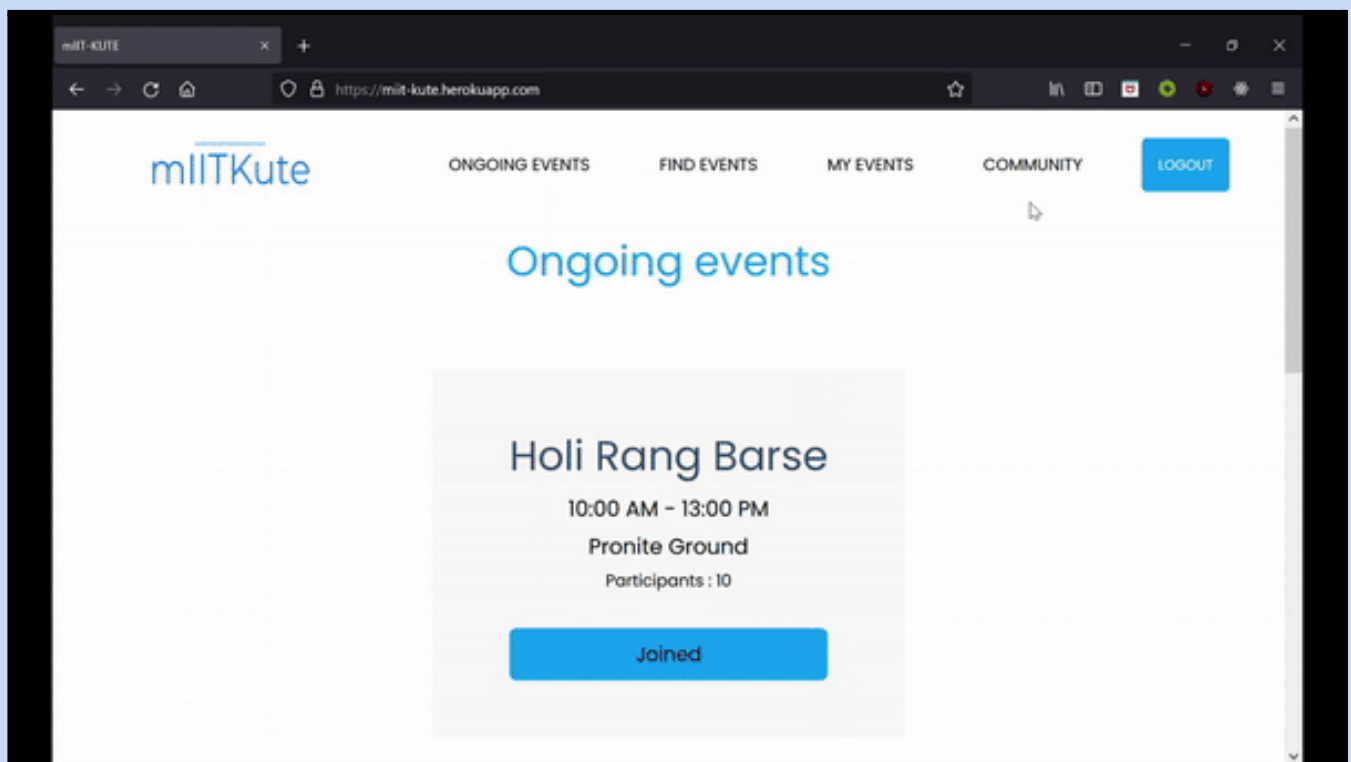

This tab displays the different events joined by you.

Joining an Event

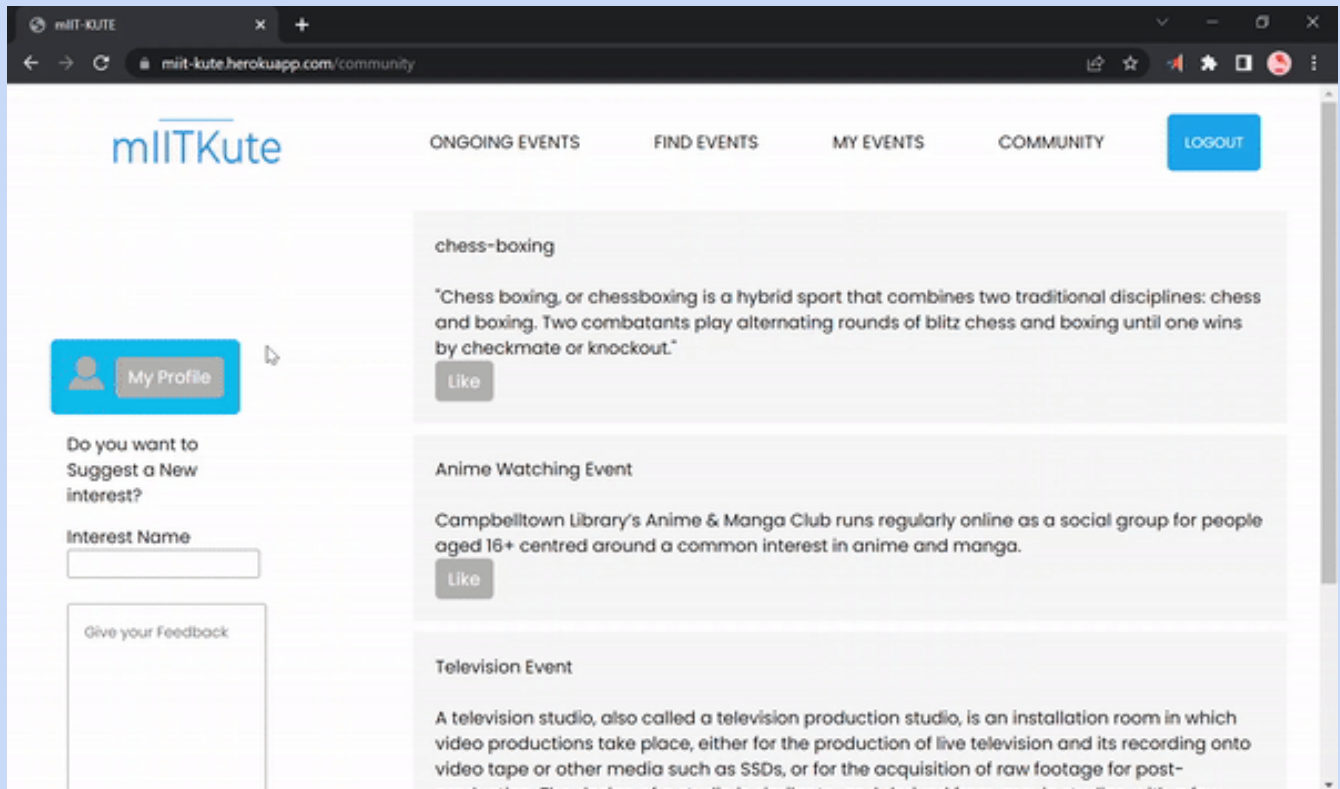

### 4. Community:

This is where you can see and edit your profile and suggest some new interest to be added to the portal. You can also like the other suggestions in this page.

Suggesting a new Interest

The 'My Profile' option takes you to your details which you may view and/or edit.

Viewing and Editing 'My Profile'

### 3. Issue Handling

- > In case you are already registered, trying to register again would not serve the purpose. That is, a user can register only once.
- > If you enter a wrong username or an incorrect password, the application gives a "Wrong email or password" prompt.
